Languages: English (Fluent), Luganda (Native)

**Biomedical Engineer | Full-Stack Software Developer | HealthTech Innovator**

## PROFESSIONAL SUMMARY

Biomedical Engineering professional and Full-Stack Software Developer with extensive experience leading healthcare technology programs, managing hospital systems and teams, and delivering modern software solutions. Experienced in hospital infrastructure projects, installation of critical medical equipment, and development of scalable web and mobile applications.

Strong background in healthcare systems, full-stack development, and AI-assisted engineering tools, with a proven ability to lead teams and design technology solutions that improve healthcare delivery, operational efficiency, and digital transformation.

## TECHNICAL SKILLS

### Full-Stack Software Development

React Native, Next.js, Express.js, Java, JavaScript, HTML, CSS, Jest, Playwright

### Programming Languages

Java, Python, C, C++, C#, MATLAB

### AI & Machine Learning Tools

Cursor AI, OpenAI GPT, Claude Sonnet, Codex

### Microsoft Office

Microsoft Word, Microsoft Excel, Microsoft PowerPoint

### Biomedical Engineering Technologies

- Medical equipment lifecycle management
- Biomedical systems integration
- Healthcare infrastructure technology
- Diagnostic and imaging systems

### Engineering & Scientific Tools

- Embedded Systems Design
- Basics of Bioinformatics and functional genomics
- Basics of Computational Biology
- Basics of Solid Edge
- Basics of Proteus
- Basics of Eagle CAD

## PROFESSIONAL EXPERIENCE

## **Biomedical Programs Manager - Gould Family Foundation (GFF)**

Aug 2024 – Feb 2025

- Lead biomedical programs and teams across healthcare facilities in East Africa (Uganda, Kenya, Rwanda, Tanzania, Burundi, Somaliland, and Congo).
- Develop and implement biomedical equipment lifecycle management strategies.
- Oversee procurement, installation, and commissioning of advanced medical technologies.
- Ensure compliance with international healthcare technology standards.
- Train biomedical engineers and technicians across multiple facilities.

## **Biomedical Manager – C-Care IHK**

Jan 2020 – Jan 2024

- Managed biomedical engineering operations and teams for a major private hospital.
- Led the installation and commissioning of CT scanners, oxygen plants, X-ray systems, and ICU technologies.
- Developed preventive maintenance systems that reduced equipment downtime.
- Coordinated procurement and lifecycle management of hospital medical equipment.
- Ensured compliance with COHSASA hospital accreditation standards.

## **Biomedical Engineer - Norvik Hospital Ltd**

Apr 2019 – Jan 2020

- Maintained and serviced hospital diagnostic and monitoring equipment.
- Supported the installation and calibration of medical imaging and ICU equipment.
- Assisted in implementing preventive maintenance systems.

## **Research Intern - Uganda Virus Research Institute**

Dec 2018 – Apr 2019

- Participated in biomedical research projects.
- Assisted in laboratory data analysis and scientific experimentation.

## **Teaching Assistant - Makerere University – College of Health Sciences**

Mar 2016 – Aug 2017

- Assisted in teaching biomedical engineering courses.
- Supported laboratory practical sessions for engineering students.

## **MAJOR ACHIEVEMENTS**

- Upgraded the NICU at Mama Lucy Kibaki Hospital in Nairobi, Kenya.
- Led the planning and installation of equipment for MD Service Hospital at the Kibali Gold Mine in Kenya.
- Developed a hospital management system for web, Android, and iOS, currently used by more than 10 hospitals.
- Led biomedical equipment planning for multiple healthcare facilities.
- Supported successful COHSASA hospital accreditation at C-Care IHK.
- Managed the installation of critical hospital technologies, including CT scanners, X-ray systems, and oxygen plants, at C-Care IHK. Also supported upgrades to the ICU and theater at the same hospital.
- Developed hospital biomedical equipment master planning strategies.
- Trained biomedical engineers and technicians across healthcare facilities.

- Improved equipment uptime and operational efficiency through preventive maintenance programs.

## **MEDICAL EQUIPMENT EXPERIENCE**

- **Imaging:** CT Scanners, X-Ray Machines, Ultrasound Systems, C-Arms
- **Intensive Care:** Ventilators, Patient Monitors, Infusion Pumps, ICU Equipment
- **Neonatal & Maternity:** Neonatal Incubators, Phototherapy Units, Foetal Dopplers, CTG Machines, delivery beds
- **Laboratory Equipment:** Haematology Analyzers, Chemistry Analyzers, Blood Banks, RO Water Systems, and more.
- **Theater:** Anesthesia machines, diathermy, operation beds, laparoscopy towers, etc.

## **EDUCATION**

### **University of Washington**

Certificate – Leadership and Management in Health  
2022 (A+)

### **Makerere University**

BSc Biomedical Engineering (Second Upper Honors)  
2012 – 2017

### **Green Bridge School of Open Technology**

Advanced Java Programming  
2016 (A+)

## **PROFESSIONAL SKILLS**

- Project Management
- Healthcare Technology Strategy
- Software Development
- Technical Documentation
- Data Analysis
- Leadership and Team Management
- Problem Solving

## **REFEREES**

### **Eng. Richard Ssejongo**

Biomedical Engineer – St. Francis Hospital Nsambya  
+256 753 818 754/+256 777 132 489

### **Dr. Annet Khingi**

Senior Radiologist & Administrator – Mengo Hospital  
+256 772 592 771 | +256 701 592 771

### **Dr. Mamello Muhanuuzi**

Former Medical Director – International Hospital Kampala  
+256 702 811 008
